

# 2026 Valentine Eastern Sierra Reserves Graduate Student Research Grant Application Due March 31, 2026

## Overview and Instructions

### Background and Eligibility

We anticipate giving several awards of up to \$1,500 each. Studies must be conducted at, or based out of **Valentine Camp Reserve** or the **Sierra Nevada Aquatic Research Laboratory (SNARL)**.

Applicants must be enrolled in an accredited college or university while conducting their research. In the case of summer research, enrollment during the preceding spring quarter/semester and clear intent to enroll in fall quarter/semester is acceptable as is proof of acceptance.

Prior or concurrent recipients of NRS student research grants (Mathias Graduate Student Research Grant or VESR Grant) are eligible for the 2026 competition. Please attach a brief progress report if such funding was received.

### Application Procedure

Applications and supporting documents are due by **March 31, 2026 at 5 PM**, and should be submitted via email to the VESR Director at [carol.blanchette@ucsb.edu](mailto:carol.blanchette@ucsb.edu)

This application is an Adobe Acrobat form, and should be completed and saved as a pdf document. The required supporting documents may also be included with the application and saved and submitted as a single pdf file.

Your application should be reviewed by your supervising faculty member or advisor, and you must include the name and email contact for your advisor. We will then email them a short form indicating their support for the proposed research and merits for funding through this grant program.

### Required Supporting Documents:

1. Current Curriculum Vitae (2 page maximum)
2. Recipients of previous NRS student research grants (e.g. Mathias or VESR grants) must submit a one-page report (final or progress) of the previously funded project.
3. A list of any permits that are required to carry out the research, and/or copies of the permits or applications.

### Timeline and Award Requirements

- The Reserve Director, in consultation with a review panel, will make final awards decisions by April 15, 2026.
- Successful applicants must submit copies of appropriate collecting permits, animal care committee approvals, campus accounting information, and some brief biographical information (details will be provided) before awards will be disbursed.
- Funds will be held in an account at UCSB, and administered by UCSB. Funds may only be used for the expenses described in the proposal budget.
- Funds must be used in calendar year 2026. If for any reason funds need to be carried beyond December 2026, please submit a brief justification for any needed carry-forwards by December 15, 2026.
- Awardees must submit a progress report to the Reserve Director by December 15, 2026. Applicants will be disqualified from future VESR grant programs if they do not comply with this requirement.

# Evaluation Criteria

## Primary Criteria

1. **Merit of the proposed research:** Evaluation of research quality will be based on the importance of the problem, originality, statement of research questions or hypothesis, sampling design and analysis, preliminary information supporting the feasibility of the proposed research, and likelihood of success.
2. **Reserve dependence:** Research must take place on the Valentine Eastern Sierra Reserves (SNARL or Valentine Camp), or sites located in the region of the reserves. Some use of one or both of the reserves is required. However, off-site areas in the region of the reserves may be used more than sites on the reserves. Higher scores will be assigned for research that takes advantage of special reserve conditions, such as a history of related research, occurrence of unique/special conditions or resources, need for protection of experimental treatments, and so forth.

## Additional considerations

The following criteria will also be taken into consideration:

1. The feasibility of completing research as stated in the application.
2. Previous VESR funding and other funding. Preference will be given to projects lacking other support.
3. Satisfactory progress on research funded by prior grants (if applicable).
4. Preference will be given to proposals for research directly related to the student's dissertation research.

# Applicant Information

---

Name

University

Department

E-mail

Mailing Address

City

State

Zip Code

Phone Number

Name of Academic Advisor

Academic Advisor's E-mail

Have you ever received a Mildred E. Mathias Graduate Student Research Grant?

Yes      No

Have you ever received a VESR student grant?

Yes      No

# Project Summary

---

Title of Research Project

Purpose of the Research Project (1000 characters or less)

Site(s) where Research Will be Conducted (please be as specific as possible)

How is the Reserve Important to the Project?

# Project Description

---

**Introduction:** Background, Problem Statement, Objectives and Hypotheses  
(4000 characters or less (including spaces))

**Research Plan:** Methods, Experimental Design and Analyses  
(4000 characters or less (including spaces))

**Anticipated Significance:** Broader Impacts and Relevance to the Natural Reserve System  
(4000 characters or less (including spaces))

**Timeline:** Planned dates for project activities, including final report submission (2000 characters or less (including spaces))

**References Cited:**

# Budget Information

---

List the items for which support is requested, their cost, and the total amount requested.

**Allowable costs:** Funding may be requested for: Reserve user fees (lab space, housing, etc.) and necessary supplies. We do not fund travel or mileage, but will allow a supplement of up to \$200 for gas to travel to and from the reserve and to and from field sites.

**Non-allowable costs:** salary; food; travel or mileage; preparation of thesis copy; publication costs; purchase of classroom books; purchase of computers and printers; laboratory fees at facilities other than SNARL.

Itemized List of Necessary Supplies Requested and Associated Costs

Itemized List of Fees charged by the Reserve for which support is requested (housing, lab space, etc.)

Other Costs

**Total Request (\$1500 maximum)**

List of all funding sources for this project (include pending grants to you and your advisor) and how this grant would supplement these funding sources.
